

## CONTENTS

## Vol. 14, No. 1 — First Quarter 1990

Review Article: Transmission electron microscopy of cements and mortars <i>G. W. Groves</i> .....	1
Stress corrosion cracking and grain boundaries in copper-based alloys <i>T. Mimaki, M. Yamashita, S. Hashimoto and S. Miura</i> .....	9
Study of yield behaviour of metals during incremental compression tests, under hot working conditions, using a wedge plastometer <i>A. R. Morgridge</i> .....	20
Structural characterization of Cu-rich barium copper oxides <i>J. G. Thompson, T. J. White, R. L. Withers, J. D. FitzGerald, P. J. Barlow and S. J. Collocott</i> .....	27
Some crystal chemistry of $(\text{Ln,Ce})_2\text{CuO}_{4-\delta}$ compounds <i>P. Goodman, A. Keating, S. Myhra and T. J. White</i> .....	33
Atomic profile imaging of ceramic oxide surfaces <i>L. A. Bursill, J.-L. Peng and J. R. Sellar</i> .....	41
Mechanical property and microstructural observations for some silicon carbide-reinforced alumina composites <i>G. Sanders and M. V. Swain</i> .....	60
Acid-leaching of alkoxide-route Synroc precursor powders <i>E. R. Vance, J. R. Bartlett and J. L. Woolfrey</i> .....	70
Short Communication: Oxide spalling during creep-fatigue testing of a 1Cr-0.5 Mo steel <i>S. D. Mann</i> .....	78

**Vol. 14, No. 2 — Second Quarter 1990**

Review Article: Relationship between chemistry and properties of liquid crystalline polymers <i>F. Cser</i> .....	81
Chemistry-related problems in the processing of Bi-based cuprate superconductors <i>S. X. Dou, H. K. Liu, C. C. Sorrell, K-H. Song, M. H. Apperley, S. J. Guo, K. E. Easterling and W. K. Jones</i> .....	92
Strain measurement and modelling of sheet metal forming <i>J. L. Duncan and Z. T. Zhang</i> .....	109
Weibull statistical analysis of grinding element wear in ring-and-ball mills <i>C. Spero</i> .....	115
Effects of sealant thickness on the cure time of a fluorosilicone sealant <i>R. H. E. Huang and W. Mazurek</i> .....	120
Use of miniature specimen accelerated creep-rupture testing to determine component residual life <i>R. W. Coade</i> .....	124
Lattice parameters and interplanar spacings of $\text{Fe}_2\text{Al}_5$ and $\text{Fe}_2\text{Al}_5\text{-Zn}_x$ <i>Z. W. Chen, R. M. Sharp and J. T. Gregory</i> .....	130
The sequence of morphology transition in mixed martensites <i>H. Gong and X. M. Zhang</i> .....	137
Optimum conditions for grain refinement in carbon steels by thermomechanical treatment <i>C. M. Kamma</i> .....	142
Short Communication: Creep strain monitoring using a d.c. potential drop technique <i>S. D. Mann</i> .....	147
Short Communication: Surface cracking and oxidation during fatigue and creep-fatigue testing of a 1Cr-0.5 Mo steel <i>S. D. Mann</i> .....	151
Book Reviews .....	157
Corrigendum .....	159

**Vol. 14, No. 3 — Third Quarter 1990**

Review Article: Thermal spraying for bioceramic applications <i>C. C. Berndt, G. N. Haddad, A. J. D. Farmer and K. A. Gross</i>	161
The physical ageing mechanism in glassy polycarbonate studied by positron annihilation lifetime spectroscopy <i>A. J. Hill</i>	174
Metal and inorganic particulates in high performance coatings and electroactive polymer composites <i>J. R. Tetaz</i>	183
Gas plasma techniques for the preparation of hydrophilic polymer surfaces <i>H. J. Griesser</i>	192
The cure kinetics of an aerospace epoxy resin <i>G. A. George, P. Cole-Clarke and N. St John</i>	203
Photodegradation of polyvinylchloride <i>D. J. T. Hill, F. A. Kroesen, J. H. O'Donnell and P. J. Pomery</i>	210
Photodegradation of polyolefins <i>M. E. Austin, D. J. T. Hill and J. H. O'Donnell</i>	214
The photo-oxidation of stressed polyethylene tapes and the influence of prior cross-linking <i>W. K. Busfield and M. J. Monteiro</i>	218
The production of high modulus poly(vinyl alcohol) rod by solid state processing <i>C. J. Conibeer, K. Z. Lin and G. H. Edward</i>	224
Physical ageing of unmodified and rubber-modified epoxies <i>V-T. Truong and B. C. Ennis</i>	230
The effect of contaminants from processing equipment on the heat treatment of Mg-PSZ <i>C. S. Montross</i>	234
Synthesis of alkyl-substituted poly(phenylene sulfides) by oxidative polymerization of diphenyl disulfides <i>K. Yamamoto, M. Jikei, J. Katoh, H. Nishide and E. Tsuchida</i>	239
Book Reviews	243

**Vol. 14, No. 4 — Fourth Quarter 1990**

The three critical temperatures of steel rolling and their experimental determination <i>S. Yue and J. J. Jonas</i> .....	245
High temperature deformation of low carbon steels <i>R. Colás</i> .....	253
Microstructural and mechanical properties of controlled rolled triphase (ferrite, bainite and martensite) steels <i>D. B. Santos and R. A. N. M. Barbosa</i> .....	258
The effect of Ti and Ti-Nb additions on $\gamma \rightarrow \alpha$ transformation in HSLA steels rolled and held in $\gamma + \alpha$ two-phase region <i>B. Feng, D. P. Dunne and T. Chandra</i> .....	264
Control of mechanical properties in high strain wire drawing of pearlitic steel <i>I. P. Kemp</i> .....	270
Grain-boundary character distribution and texture evolved by $\alpha$ - $\gamma$ - $\alpha$ transformations of (110)[001] iron single crystal <i>J. Harase, R. Shimizu, Y. Nakamura and N. Takahashi</i> .....	276
Comparison of static softening in 304 and 301 stainless steels in constant and declining temperature tests <i>N. D. Ryan and H. J. McQueen</i> .....	283
Grain orientation distribution in a hot rolled 17% Cr ferritic stainless steel <i>J. Harase, K. Ohta, T. Takeshita and R. Shimizu</i> .....	296
Extraction and characterization of precipitates formed in a niobium HSLA steel <i>S. Read, R. K. Gibbs and B. A. Parker</i> .....	304
Analysis of microstructure and precipitate distributions using image processing <i>Y. Yoshitomi, Y. Matuo and N. Takahashi</i> .....	308
Mathematical model of carbide precipitation and growth during continuous annealing of deep drawing steel <i>G. Abbruzzese and P. E. Di Nunzio</i> .....	314
Author index to volume 14 .....	322
Subject index to volume 14 .....	323
